DETAILED ACTION

This Office Action is a Supplemental Action in response to applicant's Remarks filed 8/10/06 and telephone interview with applicant's representative E. Keaney on 3/28/07. Claims 1-7 are pending; claims 8-11 are withdrawn from examination due to being an unelected Group.

Election/Restrictions

Applicant's election with traverse of claims 1-7 of Group I in the reply filed on 8/10/06 is acknowledged. The traversal is on the ground(s) that Group I and II are patentably indistinguishable, and the search required for Group I overlaps the search for Group II thus not imposing a serious burden on the Examiner. This is not found persuasive because these inventions are independent or distinct for the reason that method claims 8-11 of Group II do not require a microcomputer, unlike that of apparatus claims 1-7 of Group I. There would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

The requirement is still deemed proper and is therefore made FINAL.
